

NATURE WORKS— PUREST FILTER MEDIA

Maximum filter performance due to filter glass made of purest, white flat glass

Filters smallest particles up to 1 µm thanks to special and unique surface calibration. The Nature Works Hi-Tech glass filter media has an exact granular size from 0,6 - 1,2 mm.

Speed controlled
Smart swimming pool pump E-Pro

Polyester filter BREGENZ II
incl. Loxone Aquastar® Air pool control

SMART POOL TECHNOLOGY made in Austria

THE MOST INNOVATIVE
GLASS FILTER MEDIA

WITH REGARD TO
YOUR WELLBEING
AND THE ENVIRONMENT

CRYSTAL-CLEAR POOL WATER WITH HIGHEST HYGIENE FACTOR

Nature Works is more than 99,64% free of contamination

Nature Works uses only the purest, white flat glass, the so-called „original glass“, from window production. The certified glass is free of any soiling and is therefore clearly superior to filter sand and green / brown glass filter media made from recycled bottle glass.

Resistant to biofilm and bacteria

The MC2 ensures a precisely defined granular size and the special rounded surface of the granular stones. This prevents the proliferation of bacteria and the formation of biofilm and minimizes the use of pool chemistry.

In addition, the soft rounded edges protect against injury and wear of the filter inside and filter star.

Less Backwashing thanks to Anti-compaction-technology

Nature Works anti-compaction technology prevents the compaction and channeling. The hi-tech glass filter media is characterized by no clumps, easy backwashing and less backwash cycles. Therefore, there is no need of support layers made of coarse glass.

Reusing is the new recycling

Nature Works is recycled pure white flat glass packed in ecological and tear-proofed paper bags. Thanks to the use of much harder flat glass and the MC2 calibration technology, which produces exactly one granular size, it shows less wear and triumphs with its aboveaverage service life.

Water- & energy savings

Less backwashing and optimal flow rates will have a positive impact on the water and energy consumption of your pool. As a result, the investment in Nature Works Glass Filter Media pays off for you shortly.

TRUST IN NATURE WORKS GLASS FILTER MEDIA

Lean back and enjoy maximum hygiene

This is proven by the certified and traceable production and thousands of satisfied users in the private and public pool industry worldwide.
