POLYESTER FILTER PREMIUM 600/750

BREGENZ II

LAMINATED FILTERS MADE OF SPECIAL GLASS FIBER & SPECIAL RESIN, FOR SWIMMING POOLS FOR PRIVATE USE, THE EXTERIOR FINISH IN UV-RESISTANT GELCOAT

TECHNICAL DETAILS

- » **MAX. TEST PRESSURE: 3.75 BAR**
- » **MAX. WORKING PRESSURE: 2.5 BAR**
- » **MAX. OPERATING TEMPERATURE: 42°C**
- » **MIN. FILTER BED HEIGHT: 600 MM**

- » Suitable for fresh water as well as for salt water
- » Filter cover consists of a transparent $\varnothing 400$ mm injection molded lid, made of ultra-resistant elastic material (Tritan®)
- » Robust arm distribution system calculated to obtain optimal hydraulic performance
- » External fittings in PVC PN16 for greater strength
- » Internal maintenance fitting
- » Raised filter bed for better filtration
- » Increased filter drain 1 ¼ "
- » AISI 316 stainless steel insert that allows the pressure gauge not to be screwed directly onto the cover
- » Nickel-plated brass cover nuts
- » Protective tape
- » 6-way valve set included
