EASY CLEANING THANKS TO PRACTICAL FEATURES

With the robust construction of the Ocean® deluxe floor vacuum cleaner, the suction head is pressed down, preventing buoyancy in the water. This makes cleaning the pool floor easier.

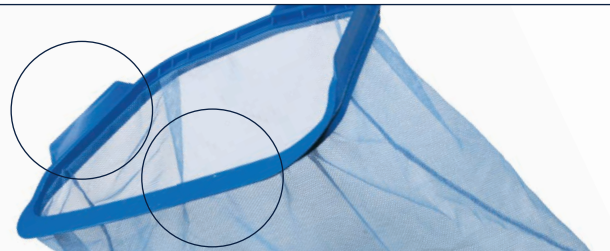

The click system on the reinforced handle of the Ocean® deluxe floor vacuum cleaner ensures easy assembly of the telescopic rod. The connection piece for the pool hose can be rotated 360°.

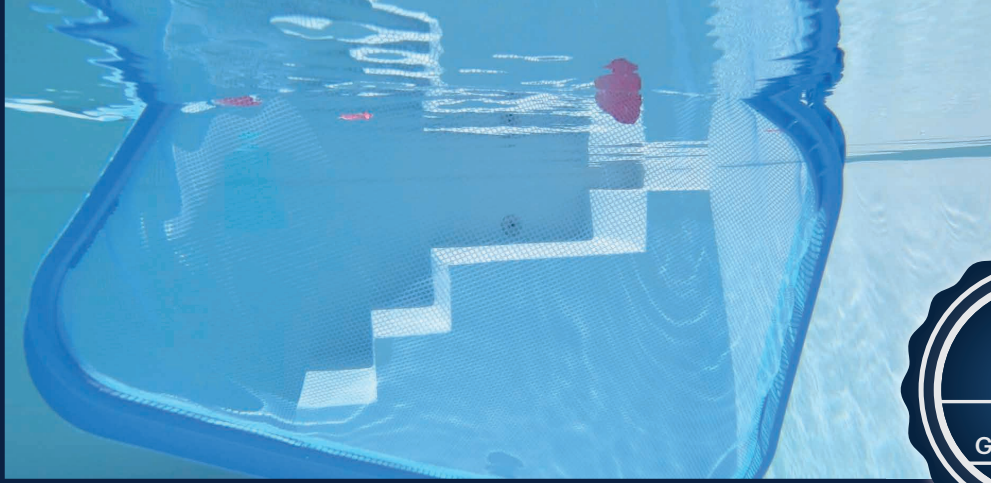

The Ocean® Alu telescopic rod deluxe is available in 2-part and 3-part versions. At the front end of the rod is the introducer sheath. The click system makes it child's play to attach and change nets, vacuum cleaners, etc.

The receiving tabs on the frame of the Ocean® deluxe leaf rake are functional helpers when collecting dirt on the walls and on the floor.

The integrated adjustment ring is under water. The Ocean® deluxe chlorine dispenser allows individual dosing. Depending on how far the exit gaps are opened, chlorine soaks into the pool water. The transparent lid shows immediately whether a new chlorine tablet needs to be refilled.

smart

Smart by Peraqua stands for intelligent and innovative pool cleaning accessories designed and developed in Austria.

We call our attention to a nice-looking design and a good functionality, the production process is monitored and strictly.
